RE: CONSENT AGREEMENT (VII-92-H-008 AND VII 93-T-499-E)  
PROGRESS REPORT, NOVEMBER 1, 1995 THROUGH  
JANUARY 31, 1996

Dear Ruben:

This progress report is being prepared pursuant to paragraph 8 of the first modification to consolidated consent agreement and order, as referenced above.

1. New Facility: The site work is 95% complete including water retention pond and water drainage systems.

The building pad dirt work is 80% complete with approximately 20% left to be lime stabilized. We tentatively plan to commence with building construction on March 4, 1996. All major contracts have been awarded including the mechanical, electrical, plumbing and structural steel. We anticipate having the balance of bids in and contracts awarded by February 28, 1996.

Construction permit #95110091 was issued by IEPA on January 16, 1996.

2. Paint: We have awarded the contract for the E-Coat system to Therma-Tron-X, Inc. Sturgeon Bay, Wisconsin. Installation of the E-Coat system will commence in August, 1996, with completion mid-November, 1996. We have elected to use all liquid LOW V.O.C. top coats, which will be applied with H.V.L.P. guns.
3. Closure Plan: We plan to continue to correspond through our consultants Schreiber, Grana, & Yonley, Inc. with the Missouri Department of Natural Resources pending receipt of the closure certificate. However, we have been advised, due to the heavy back log any decision on our closure plan has been delayed.

4. S.E.P.S.

- We disposed of the liquid contents in the wood treatment A. S. T. on November 27, 1995, and the contaminated water from the wood treatment dip tank on January 29, 1996, at a total cost of \$12,954.15.
- We anticipate cleaning and disposing of the A.S.T. along with demolition of the wood treatment building being complete by March 1, 1996.

5. Qualifying Expenses (Not previously submitted)

Charges for consultant and legal fees for S.E.P. investigation:

Ruben, we are awaiting final disposition of the four S.E.P.S. of which support information was submitted in September, 1995. Also addition possible S.E.P.S. were submitted by our consultants Schreiber, Grana, & Yonley in October, 1995.

Any information you have regarding these will be appreciated. If there is more information needed or any questions you have, please feel free to contact me.

Sincerely,

Kevin Price  
Environmental Engineer
